## Programming Enthusiast and Aspiring Full Stack Developer

*With a great love for technology and teamwork*

I love computers! When I was a kid, I had my first computer and I was amazed at how a computer can solve many tasks in a short time. That's why I decided to take development courses and have developed programming logic over the time I've spent coding in different languages.

## Skills

- HTML / CSS / Bootstrap
- JavaScript
- Git and GitHub
- Inglés Intermedio
- Diseño Web Responsivo
- React JS
- PHP / MySQL
- Decision Making

## Education
